

- 1/22/2014 “Ecogenomic approaches to understanding virus ecology across the world’s oceans”**
Dr. Steven Wilhelm, The University of Tennessee
Hosted by: Dr. James Van Etten, Nebraska Center for Virology
- 1/29/2014 “Open algae pond ecology”**
Dr. Robert McBride, Sapphire Energy
Hosted by: Dr. Dave Dunigan, Department of Plant Pathology
- 2/5/2014 “Consider Food Safety Requirements for GMOs Before Starting Development”**
Dr. Richard Goodman, University of Nebraska-Lincoln
Introduction by: Dr. Rolando Flores, Department of Food Science & Technology
- 2/12/2014 “The call of the wild: Studies of SIV infection in natural hosts in the wild”**
Dr. Cristian Apetrei, University of Pittsburgh
Hosted by: Dr. Qingsheng Li, School of Biological Sciences
- 2/19/2014 “Genetic and Molecular Dissection of a Simple Circadian System”**
Dr. Jay Dunlap, Dartmouth Medical School
Hosted by: Dr. Gary Pickard, School of Veterinary Medicine and Biomedical Sciences
- 2/26/2014 “Efficient gene-inactivation and non-meiotic allele introgression in livestock”**
Dr. Scott Fahrenkrug, Recombinetics, Inc.
Hosted by: Dr. Don Weeks, Department of Biochemistry
- 3/5/2014 “Pollinators, Pesticides, and Pathogens: Linking Bee Colony Health to Varroacide Exposures”**
Dr. Troy Anderson, Virginia Tech
Hosted by: Dr. Blair Siegfried, Department of Entomology
- 3/12/2014 “Phased Small RNAs in Plants: Novel Roles for Secondary siRNAs”**
Dr. Blake Meyers, University of Delaware
Hosted by: Dr. Sally Mackenzie, Department of Agronomy & Horticulture
- 3/19/2014 “Toward a Mechanistic Understanding of the Roles of Pentatricopeptide Repeat Proteins in Organellar Gene Expression”**
Dr. Alice Barkan, University of Oregon
Hosted by: Dr. Jeff Mower, Center for Plant Science Innovation / Department of Agronomy & Horticulture
- 3/26/2014 Spring Break: No Seminar**
- 4/2/2014 Seminar Cancelled**
- 4/9/2014 “Deciphering Regulatory Networks Controlling Endosperm Development”**
Dr. Ramin Yadegari, University of Arizona
Hosted by: Dr. David Holding, Center for Plant Science Innovation / Department of Agronomy & Horticulture
- 4/16/2014 “Nonself recognition and signaling mechanisms in plants”**
Dr. Libo Shan, Texas A&M University
Hosted by: Dr. Jim Alfano, Center for Plant Science Innovation / Department of Plant Pathology
- 4/23/2014 “Discovery and functional analysis of plant small silencing RNAs”**
Dr. Michael Axtell, Penn State
Hosted by: Dr. Bin Yu, Center for Plant Science Innovation / School of Biological Sciences

CENTER FOR BIOTECHNOLOGY

N300 Beadle Center
1901 Vine Street
Lincoln, NE 68588-0665
Phone: 402-472-2635
E-mail: BiotechPSIOffice@unlnotes.unl.edu
Website: <http://biotech.unl.edu/>

Fax: 402-472-3139

Spring 2014
Wednesdays

Reception - 3:30 p.m. Seminar - 4:00 p.m.
E103 Beadle Center
