The Milton E. Mohr
2018-2019 Awards Program
Biotechnology Degree Program Recipients

Scholarships

Matthew D Ballweg .......................................................... Department of Chemistry
Shannyn R Bird................................................................. Department of Biochemistry
Nicholas A Bohannon ..................................................... Department of Nutrition & Health Sciences
Chloe M Christensen ......................................................... Department of Food Science & Technology
Caitlyn A Deal................................................................. School of Veterinary Medicine and Biomedical Sciences
Elizabeth K Drey............................................................... Department of Food Science & Technology
Rodger B Farr ................................................................. Department of Agronomy and Horticulture
Jeffrey T Gabell ............................................................. Department of Biochemistry
Jessica A Glas ................................................................. Department of Biochemistry
Ibraheem D Hamzat .......................................................... Microbiology Program
Abby J Herding ................................................................. Microbiology Program
Kun Huang ........................................................................ Department of Food Science & Technology
Alexa M Kapla ................................................................. Department of Animal Science
Madison N Kraus ............................................................. Department of Nutrition & Health Sciences
Chad J Lammers ............................................................... Department of Agronomy and Horticulture
Ryan D Langemeier ........................................................ Department of Agronomy and Horticulture
Lauren E Lesiak ................................................................. Department of Chemistry
Rajan K Mediratta ............................................................. Microbiology Program
Nam V Nguyen ................................................................. Department of Biochemistry
Bryan M Petersen ............................................................ School of Natural Resources
Robert J Schroeder .......................................................... School of Natural Resources
Justin Q Tran ................................................................. Department of Entomology

Fellowships

Blessing F Ademokoya .......................................................... Department of Entomology
Arun Saravana Kumar Annamalai ........................................ School of Veterinary Medicine and Biomedical Sciences
Allison C Barnes ............................................................. Department of Biochemistry
Thais Galhardo Egereja Riberio Silva ................................... Department of Plant Pathology
Eric A Noel ................................................................. School of Biological Sciences
Dinesh Panday ................................................................. Department of Agronomy and Horticulture
Shelby A Springman ........................................................ Department of Animal Science
Kimberly M Stanke ........................................................... Complex Biosystems
Kelly A Willemssens ........................................................ School of Natural Resources
Junsu Yang ................................................................. Department of Food Science & Technology
Jie Zhong ........................................................................ Department of Chemistry

Milton E. Mohr (1915-2000) was described in his lifetime as "...engineer, inventor, entrepreneur, corporate leader" and was instrumental in providing key leadership to young adults. In 1938 he graduated, highest in his class from UNL with a bachelor of science degree in electrical engineering, and in 1959 UNL awarded him an honorary doctorate of engineering.

The Milton E. Mohr Scholarship and Fellowship Awards Program was established in 1989 for students in the College of Engineering or Biotechnology degree programs. Students were selected on their academic performance and potential for accomplishments in their specific field. The scholarships and fellowships are made possible through an endowment to the University Foundation.
